<td>New Business Review of 2013 Funding Application</td>
<td>Prior to tonight’s meeting, Mr. Jacobs had presented members with a FY 2013 first draft budget with comments and recommendations. Members were asked to review the proposed budget thoroughly. Mr. Jacobs noted that with the losses sustained in 2012 he has had to look where we can cut our costs and reduce expenses to manageable levels in the current economic environment. This means cuts to almost every department and no major renovations to any of our facilities, with only routine maintenance and upkeep. These changes will help keep expenditures down significantly. The 2013 operational budget includes all departments and services. As a major part of eitas revenues are connected to support coordination’s Medicaid billings, as well as the costs to maintain that department. Service Coordination is a state function and needs to support itself apart from tax levy funds. As it takes several months for a new team to get up to speed and begin billing at a level that supports their costs, Mr. Jacobs has elected, at this point, to not add any additional support coordination teams in 2013 until we are comfortable that all of our expenses are covered appropriately. A separate spreadsheet on Support Coordination Profitability has been added to show the projected surplus to be realized in 2013. This surplus will then be used to provide more services through transportation and the Hope Waiver. Mr. Jacobs went on to discuss key areas of the recommended budget and answered questions. Mr. Jacobs reminded members that this is the first draft of the 2013 budget developed from projected revenues and expenditures through August 2012, as well as planned needs in 2013. As new information is gathered from September and October financials, Mr. Jacobs will be tweaking the budget should changes need to be made. Members will be sent a revised budget with any changes noted.</td>
